

SITE 39 REMEDIATION

August 2011

SITE 39

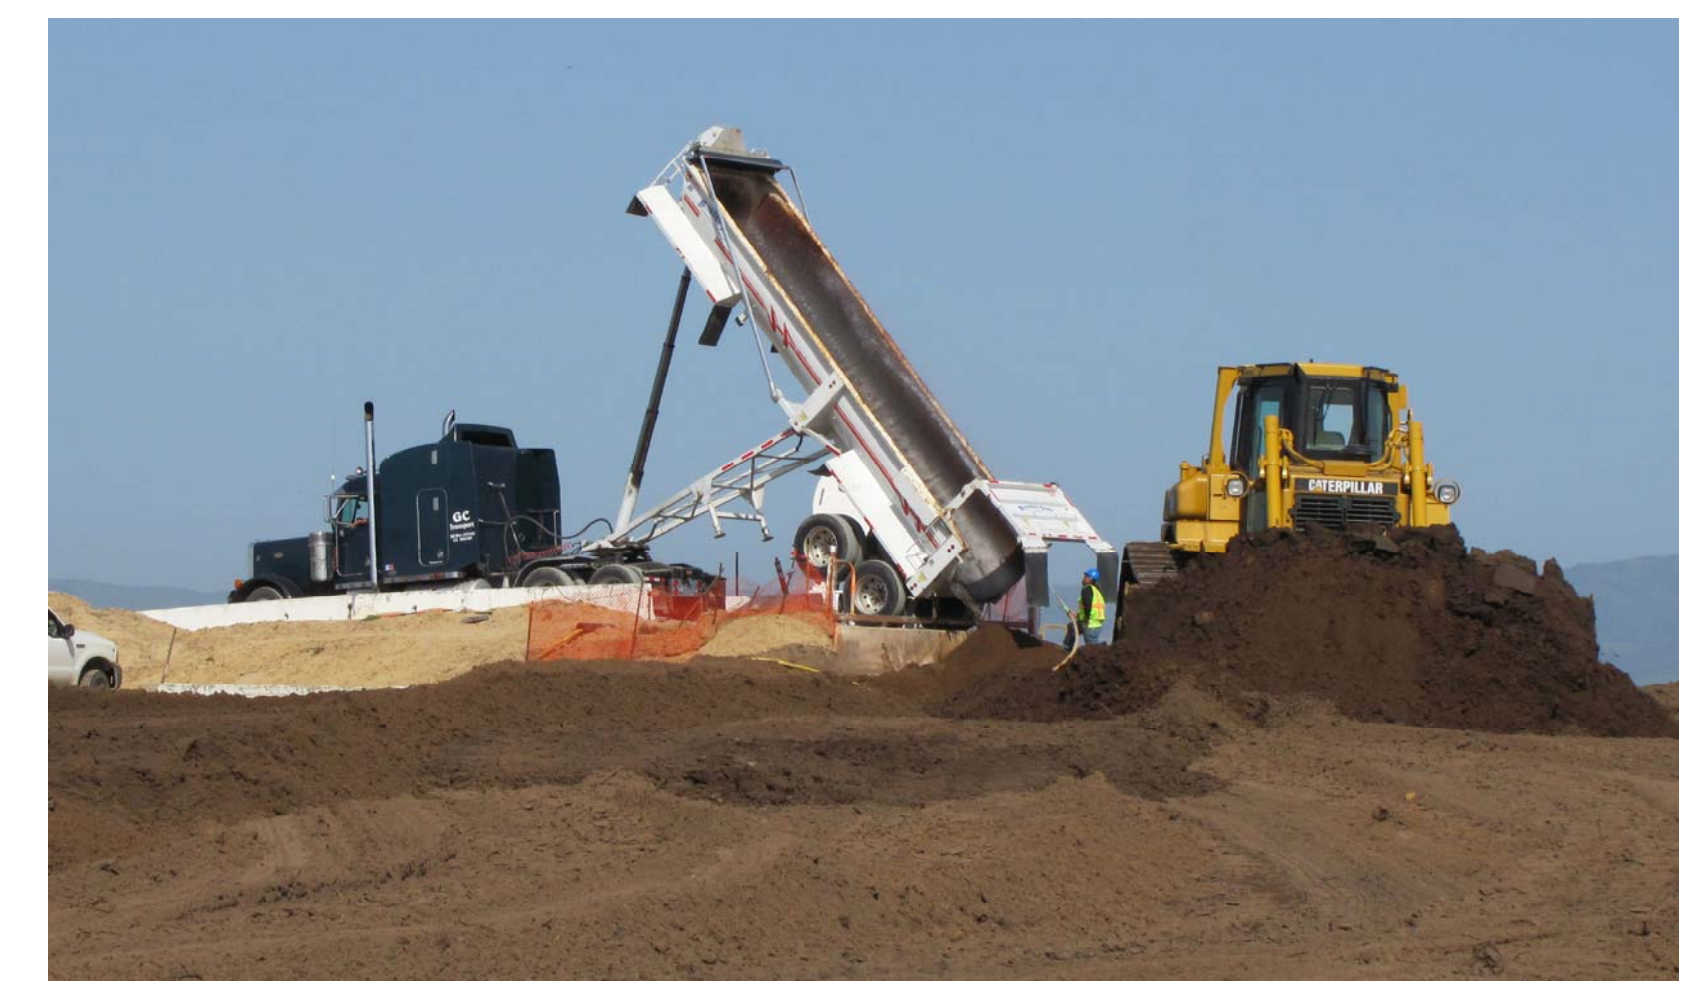

- Former firing ranges
- Areas around targets contaminated with lead and explosives
- Remedy described in the Record of Decision Amendment, signed August 25 2009
- Excavation of approximately 125,000 cubic yards of soil
- Placement of soil at the OU2 Landfill on top of the existing cover, and below a new cover
- Remedy is protective of human health and the environment

Excavator loads contaminated soil into off-road truck.

Soil is loaded into on-road truck for hauling to landfill.

Soil is deposited at landfill.

Typical range after remediation.
