

**Fort Ord Munitions Response Site Security Program Update**

1. Ongoing and Recent Actions

- Surveillance
  - POMPD and BLM Law Enforcement Impact Area Patrols (daily)
  - BRAC Site Inspections – approximately four to five times weekly
  - Six motion-activated cameras at rotating locations since 5/28/2021.
  
- Maintenance of Impact Area fence, signs and gates:
  - BLM perimeter fence inspection and repairs (weekly)
  - One large UXO sign to be updated (South Boundary Road near Laguna Seca Raceway)
  
- Planned purchases
  - Two gate signs and one road sign purchased (expected completion in July)
  
- Other Activities
  - The ongoing weekend closure of Parker Flats gate started on 8/5/2022.
  - 2022 MRS Security Committee Annual Report has been finalized and added to the Administrative Record.
  - Coordinated PG&E lock replacement at Barloy Canyon Gate 1 near East Garrison.
  - Held MOUT Security Meeting on 6/16 with BLM, MPC, and CSUMB PD regarding recent trespass incidents near the MOUT site.
  - Roadblocks placed on non-fuel break roads within the Impact Area MRA.

2. Anticipated issues and actions in the near future.

- Deterring and/or citing trespassers into restricted areas with explosive hazards.

3. Reports of trespassing or evidence of trespassing in 2023: 11 year to date

Month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

## 2023 Trespass and Evidence of Trespass Incident Summary Table

2023 #	Incident Date	Location	Description	Type: Minor/Major	Type 2: Evidence/Actual	Citation Issued
1	1/27/2023	MOUT Site, ICR North	January 27, 2023 (Friday): Security cameras recorded one individual walking north at the MOUT site, and once again walking north at Impossible Canyon Gate north at approximately 12:33.	Minor	Actual	No
2	2/11/2023	ICR North	February 11, 2023 (Saturday): Security cameras recorded one individual walking north at Impossible Canyon Gate north at approximately 12:00.	Minor	Actual	No
3	3/11/2023	ICR North, MOUT Site	March 11, 2023 (Saturday): Security cameras recorded seven young individuals walking south at Impossible Canyon Gate north at 14:36, and once again by the MOUT site at 14:42. All seven were recorded again walking north at Impossible Canyon Gate north at 16:58.	Minor	Actual	No
4	3/25/2023	Orion Gate North	March 25, 2023 (Saturday): Security cameras recorded one male individual entering the Impact Area at Orion Gate north @ 17:54. A woman and a young girl were also photographed looking on. The male was recorded climbing back over the gate at 17:56.	Minor	Actual	No
5	3/30/2023	Unit 23	March 30, 2023 (Thursday): BRAC Biologist was performing hydrological surveys when he observed two suspected munitions on the ground near Pond 54. Kemron UXO safety escort examined the items and removed them for scrap/recycling. Upon further review, Kemron UXO personnel identified the items as training aids that were used to train soldiers on recognizing/handling of mines similar to the M16 series	Major	Evidence	No

			antipersonnel mines. They are made of plastic and are completely inert. Because they are completely inert training aids, that have been recorded as range-related debris. Based on how the items were found present, it is suspected the items were placed in conjunction with an unauthorized entry, therefore it is considered as evidence of trespass.			
6	4/7/2023	BLM Area B, Unit B-3E	April 7, 2023 (Friday): BRAC Biologist and BRAC Site Security were performing hydrological surveys at Pond 60 in BLM Area B, Unit b-3 when they observed fresh bike tracks leading off trail. The tracks led form Addington Road, past the east side of Pond 60, heading south towards Trail 56 and Machine Gun Flats Road.	Minor	Evidence	No
7	4/11/2023	ICR North	April 11, 2023 (Tuesday): Security cameras recorded three individuals walking south at Impossible Canyon Gate north @ 18:19. All three individuals were recorded once again walking north at Impossible Canyon Gate north @ 19:03.	Minor	Actual	No
8	4/15/2023	ICR North	April 15, 2023 (Saturday): Security cameras recorded two individuals walking south at Impossible Canyon Gate north @ 14:54. Both individuals were recorded once again walking south at Impossible Canyon gate north at 16:23.	Minor	Actual	No

9	5/20/2023	ICR North	May 20, 2023 (Saturday): Security cameras recorded two young males walking south at Impossible Canyon Gate north with backpacks and sleeping pads at 21:17. Both individuals were recorded once again walking north at Impossible Canyon Gate north on Sunday May 21 @ 08:48, one individual was holding a shovel. They were both recorded riding bicycles south at Impossible canyon gate north at 08:58.	Major	Actual	No
10	6/4/2023	ICR North, MOUT Site	June 4, 2023 (Sunday): Security cameras recorded four young males walking south at Impossible Canyon Gate north at 11:15 and at the MOUT site at 11:22. They were recorded again walking north at the MOUT site at 12:50 and at Impossible Canyon Gate north at 12:55.	Minor	Actual	No
11	6/4/2023	ICR North, MOUT Site	June 4, 2023 (Sunday): Security cameras recorded seven young males walking south at Impossible Canyon Gate north at 15:31 and by the MOUT site at 15:35. They were recorded again walking north at the MOUT site at 18:22 and at Impossible Canyon Gate north at 18:26.	Minor	Actual	No

**Minor Trespassing:** Incidents that are unlikely to result in explosive hazard exposure. Example: trespass on roads that have undergone subsurface MEC removal, where there is no evidence of trespasser engaging in ground disturbing activities.

**Major Trespassing:** Incidents that are more likely to result in explosive hazard exposure. Example: incidents where trespassers engaged in ground disturbing activities in areas that have undergone surface MEC removal.

## 2023 Munitions Incident Summary Table

2023 #	Incident Date	Location	Description	Munition	Type	Quantity	Disposition
1	1/26/2023	Impact Area MRA (Unit 25)	BLM Weed Crew was performing work in Unit 25 when they observed a possible munition on the ground. Kemron SUXOS was acting as escort at the time and examined the item. The item was suspected to be a projectile, 81mm, mortar, M43 series with the fuse broken off. The item was transported and secured awaiting demolition operations.	Projectile, 81mm, mortar, M43 series	MPPEH	1	Storage awaiting demolition operations
2	2/8/2023	Pacific Grove	Pacific Grove PD received a call from a home address in Pacific Grove stating the homeowner found a missile casing in the backyard of the residence, during digging activities. Pacific Grove PD and POMPD responded to the incident. After observing the item, POMPD reported the suspect munitions item to the BRAC MEC field manager. POMPD evacuated the home and called the Monterey County Bomb Squad. The bomb squad deemed the munition as inert debris, identified as a "Howitzer artillery round." The Sheriff's department collected the item for disposal.	"Howitzer Artillery Round"	MD	1	Removed by Monterey County Bomb Squad
3	3/6/2023	Blueline Road	BRAC team was performing a site inspection when a pedestrian approached them stating he found a suspicious item in the ground. BRAC Security Manager contacted the City of Seaside. The Seaside Police Department responded. Monterey County Bomb Squad was then contacted for assistance. The bomb squad examined the item and considered it a non-	Non-Munition	N/A	2	Removed by Monterey County Bomb Squad

			munition. The item was collected by the bomb squad.				
4	3/7/2023	Impact Area MRA (Ranges 43-48 South)	BLM Weed Crew was working in Ranges 43-48 South when they observed a suspected MEC item on the ground. Kemron UXO escort was with the team and examined the item, identifying the item as a suspected projectile, 60mm, M49 series. The item was placed in the explosives storage locker. The final description and status of the item are pending demolition operations.	Projectile, 60mm, M49 series	MPPEH	1	Storage awaiting demolition operations
5	3/30/2023	Impact Area MRA (Unit 23)	BRAC Biologist was performing hydrological surveys in Unit 23 when he observed two possible suspected MEC items on the ground. Kemron UXO escort examined the items and removed them for scrap/recycling. Upon further review, Kemron UXO personnel identified the items as training aids that were used to train soldiers on recognizing/handling of mines similar to the M16 series antipersonnel mines. They are made of plastic and are completely inert. Because they are completely inert training aids, they have been recorded as range-related debris.	Training aid	RRD	2	Removed for scrap/recycling
6	4/13/2023	Impact Area MRA (Unit 19)	BLM Weed Crew was performing work in Unit 19 when they observed a suspected MEC item on the ground. Kemron UXO escort examined the item and identified the item as a suspected projectile, 60mm, mortar, high explosive, M49 series. The item was placed in the explosives storage locker. The final description and status of the item are pending demolition operations.	Projectile, 60mm, mortar, high explosive, M49 series	MPPEH	1	Storage awaiting demolition operations

7	4/21/2023	Hilltop Park - Marina	A suspected munitions item was discovered during a planting event at Hilltop Park in Marina. Volunteers called 911, and Marina PD and CSUMB PD responded. CSUMB PD determined it was inert and removed it. Based on review of a photograph, BRAC munitions staff identified it as an expended motor with fins from a rocket, 3.5-inch (model unknown).	Rocket, 3.5-inch (model unknown)	MD	1	Removed by CSUMB PD
8	5/17/2023	BLM Area-B (Unit B)	BLM Weed Crew was performing work in BLM Area B Unit B when they observed a suspected munition on the ground. BLM staff reported it to the BRAC MEC Field Manager who examined the item and identified it as a signal, illumination, ground, model unknown. The item was removed to HA-37 for scrap/recycling.	Signal, illumination, ground, model unknown	MD	1	Removed for scrap/recycling
9	5/17/2023	BLM Area-B (Unit B)	BLM Weed Crew was performing work in BLM Area B Unit B when they observed a suspected munition on the ground. BLM staff reported it to the BRAC MEC Field Manager who examined the item and identified it as a simulator, projectile, airburst, M74A1 or M74. The item was removed to HA-37 for scrap/recycling.	Simulator, projectile, airburst, M74A1 and M74	MD	1	Removed for scrap/recycling
10	5/25/2023	Impact Area MRA (Ranges 43-48 South)	Burleson Consulting was performing work in Ranges 43-48 South when they observed a suspected munitions item on the ground. BRAC munitions staff examined the item and identified it as a suspected UXO, projectile, 60mm, mortar, high explosive, M49 series. The item was placed in the explosives storage locker. The final description and status of the item are pending demolition operations.	Projectile, 60mm, mortar, high explosive, M49 series	MPPEH	1	Storage awaiting demolition operations

11	7/10/2023	FONM, Trail 50	A recreational user was hiking south on Trail 50, near Jacks Road Gate 1, when a suspected munition item was observed on the ground. BRAC munitions staff examined the item and identified it as a fuze, grenade, practice. The item was removed for scrap/recycling.	Fuze, grenade, practice	MD	1	Removed for scrap/recycling
12	7/12/2023	FONM, near Pond 5	BRAC Biologist was performing hydrological surveys when he observed a suspected munitions item on the ground. BRAC munitions staff examined the item and identified it as a signal, illumination, ground, M125 series. The item was removed to HA-37 for scrap/recycling.	Signal, illumination, ground, M125 series	MD	1	Removed for scrap/recycling
